The Misadventures of Jennifer Pennifer,  
Teaches Families How to Nurture  
Healthy Relationships**

FOR IMMEDIATE RELEASE:

**Garland, TX – January 5, 2009** -- Life's misadventures are evident all around us. Leslie B. Kuerbitz, children's author and licensed counselor, writes about adorable Jennifer Pennifer and her misadventure in order to help create healthier, happier homes for families.

In this first book of a planned series of misadventures for Jennifer Pennifer, author Leslie Kuerbitz illustrates the importance of appropriate parenting, especially when children explore the world with curiosity and imagination.

Join adorable Jennifer – a precocious five-and-a-half-year-old with curly brown hair and bright blue eyes – on a very eventful Saturday. After her creativity gets Jennifer into a sticky situation, she and her mom teach readers (young and old alike) how to handle life's little misadventures with understanding, patience and love.

According to Leslie, "All children experience misadventures as they explore the world. They should be taught appropriate behavior through love, discipline, and encouragement."

Teachers, counselors, parents, grandparents and kids can all benefit by reading and sharing this book.
